\*Ultraleggera RAW

The classic version of ULTRALEGGERA is the chair in the aluminium raw finish that enhances the natural characteristics of the material. The ULTRALEGGERA RAW's slightly glossy structure with visible colouration differences on the joints is the apotheosis of its technologically-advanced production method.

Made of one piece of aluminium, it will fit the contemporary industrial style interiors. Next to its pure look, its main quality is the unexpected process of ageing. As in the case of all natural metals, the aluminium is the subject of oxidation, the process that slightly changes the aspect of the material. Thanks to this, the ULTRALEGGERA 1660 will record the passing of time in a form of the individual colour and texture.
